

# IT Asset Management System (ITAMS)

## Test Execution Report – Login Module

**Project:** IT Asset Management System (ITAMS)

**Module:** Login

**Testing Type:** Functional Testing, Validation Testing, Security Testing

## Test Execution Summary

| Total Test Cases | Passed | Failed | Blocked |
|------------------|--------|--------|---------|
| 15               | 15     | 0      | 0       |

**Overall Result: PASS**

### Detailed Test Cases

| TC ID | Test Scenario                | Test Data                                                           | Expected Result     | Actual Result                          | Status |
|-------|------------------------------|---------------------------------------------------------------------|---------------------|----------------------------------------|--------|
| TC-01 | Login with valid Employee ID | EMP009 / 1234567                                                    | Login Successful    | Login Successful                       | PASS   |
| TC-02 | Login with valid Gmail       | <a href="mailto:satwika@gmail.com">satwika@gmail.com</a> / Password | Login Successful    | Login Successful (for registered user) | PASS   |
| TC-03 | Invalid Employee ID          | EMP999                                                              | Invalid credentials | Invalid credentials displayed          | PASS   |
| TC-04 | Invalid Password             | EMP009 / Wrong Password                                             | Invalid credentials | Invalid credentials displayed          | PASS   |
| TC-05 | Empty Employee ID/Email      | Empty                                                               | Validation message  | Validation displayed                   | PASS   |
| TC-06 | Empty Password               | Empty                                                               | Validation message  | Validation displayed                   | PASS   |

|       |                              |                               |                                          |                                                   |      |
|-------|------------------------------|-------------------------------|------------------------------------------|---------------------------------------------------|------|
| TC-07 | Both fields empty            | Empty                         | Validation message                       | Validation displayed                              | PASS |
| TC-08 | Invalid Employee ID format   | emp123                        | Employee ID must start with 'EMP'        | Correct validation displayed                      | PASS |
| TC-09 | Employee ID exceeds length   | EMP90000                      | Employee ID cannot exceed 6 characters   | Correct validation displayed                      | PASS |
| TC-10 | Employee ID below length     | EMP12                         | Employee ID must be exactly 6 characters | Correct validation displayed                      | PASS |
| TC-11 | Invalid Gmail format         | abc@                          | Please enter a valid Gmail address       | Correct validation displayed                      | PASS |
| TC-12 | Spaces in Employee ID/Email  | EMP 123 / abc @gmail.com      | Spaces are not allowed                   | Correct validation displayed                      | PASS |
| TC-13 | SQL Injection                | ' OR '1'='1                   | Login should fail                        | Invalid credentials displayed                     | PASS |
| TC-14 | XSS Attack                   | <script>alert('XSS')</script> | Script should not execute                | Invalid credentials displayed. No script executed | PASS |
| TC-15 | Input exceeds maximum length | 300-character input           | Input is too long                        | Validation displayed                              | PASS |

## Validation Testing

### Employee ID Validation

- Employee ID must start with **EMP**.
- Employee ID must contain exactly **6 characters**.
- Last 3 characters must contain only letters and/or numbers.
- Spaces are not allowed.
- Special characters are not allowed.

**Status:** PASS

---

### Email Validation

- Must end with **@gmail.com**.
- Username must contain at least **3 characters**.
- Spaces are not allowed.
- Invalid characters are rejected.
- Consecutive dots are not allowed.

**Status:** PASS

---

### Password Validation

- Password field is mandatory.
- Minimum length validation.
- Maximum length validation.

**Status:** PASS

### Functional Testing

- Login with valid Employee ID.
- Login with valid Gmail.
- Invalid Employee ID.
- Invalid Password.
- Forgot Password navigation.
- Show/Hide Password functionality.

**Status:** PASS
